REASONS FOR ALLOWANCE

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Renee Kossiak (Reg. No. 47, 717) on July 25, 2003.

2. The application has been amended as follows:

Add the phrase "[T]his application claims the priority for U.S. Provisional Application No. 60/114, 178, filed on December 30, 1998." in the first sentence of the specification (After "FIELD OF THE INVENTION" in page 1).

3. The following is an examiner's statement of reasons for allowance:

Claims 23-40 are allowable over prior art. The closest prior art in the record are Blackburn *et al.*, (US Patent No. 6,264,825 B1, priority date: June 23, 1998) and Megerle (US Patent No. 5,874,046, filed on October 30, 1996). According to the specification (see page 6, lines 4-13 and Figure 3), an evacuated chamber is interpreted as a sterile container that is capable of being sealed and can be used to collect a tissue sample. Based on the interpretation, these prior art do not teach an evacuated chamber for collecting a tissue sample as recited in claim 23. These prior art either alone or in combination with the other art in the record does not teach or reasonably suggest a tissue collection device which comprises all limitations recited in claim 23.
